Attn: Chemical Right-to-Know Program – Re-designation of two HPV chemicals

Dear Administrator Whitman,

The DuPont Company requests the re-designation of two chemicals sponsored by DuPont as "No longer HPV". The chemicals are 1,3-Dimethyl 5-sulfoisophthalate, CAS# 138-25-0 and Oxalic Acid, CAS# 144-62-7. DuPont no longer manufactures either of these two chemicals and we do not import any quantities of the two chemicals. It is our understanding that no other company manufactures either of the two chemicals.

For the reasons listed above, DuPont requests that these two chemicals be assigned an indicator "5" (No longer HPV), on the EPA HPV list, that DuPont's name be removed as sponsor, and that the chemicals be removed from consideration for any HPV-related test rules.

Please contact me by phone at (302) 773-0910 or by e-mail, Edwin.L.Mongan-1(c)usa.dupont.com, if you have any questions regarding this matter.

Sincerely,

Edwin L. Mongan, III

Subject: HPV Testing Program

Dear Sir or Madam:

Attached are three letters confirming changes to DuPont's HPV Testing Program commitments including a change in start years for two chemicals, Fluoroethylene, CAS# 75-02-5 and 1,1,2-Trichlorotrifluoroethane, CAS# 76-13-1, and a request for delisting two chemicals, 1,3-Dimethyl 5-sulfoisophthalate, CAS# 138-25-0 and Oxalic Acid, CAS# 144-62-7. Please post these letters on the EPA HPV Testing Program website.

Best Regards,

Edwin L. Mongan III

Attn: Chemical Right-to-Know Program - Re-designation of two HPV chemicals

Dear Administrator Whitman,

The DuPont Company requests to be removed as the sponsor of two chemicals under the HPV program. The chemicals are 1,3-Dimethyl 5-sulfoisophthalate, CAS# 138-25-0 and Oxalic Acid, CAS# 144-62-7. DuPont no longer manufactures either of these two chemicals and we do not import HPV quantities of the two chemicals. It is our understanding that no other company manufactures either of the two chemicals.

For the reasons listed above, we request that DuPont's name be removed as sponsor of the two chemicals, and that once the chemicals meet the EPA's criteria for being considered "No Longer HPV" the chemicals be given an indicator of "0."

Please contact me by phone at (302) 773-0910 or by e-mail, Edwin.L.Mongan-1@usa.dupont.com, if you have any questions regarding this matter.

Sincerely,

Edwin L. Mongan, III
